The abstract of the disclosure is objected to because it contains the legal word, "comprises". Correction is required. See MPEP § 608.01(b).

16

Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Lines 1 and 10 of claim 1 is not understood. Particularly, in line one, there is a first layer claimed. In the last line of same claim, at least one further layer is claimed. Is this at least one further layer part of the footwear or the first layer? Applicants are requested to provide correction(s) or present better claim language. See claims 7, and 13 for similar problem. Again, applicants are requested to provide correction(s) or present better claim language

Claims 5,11 and 17, include bracketed phases. Applicants are requested to provide correction(s) or present better claim language.

Claims 2,8,and 14 include improper Markush groups. If applicants are attempting alternate limitations, then applicants are requested to provide correction(s) or present better claim language.

Claims 2-4,6,8-10,12,14-16, and 18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Weber et al(5829171) and Hjelle(5005679) are cited of interest for their respective teachings and additionally to show the state of the art.
